# Consol Safety

| Discriptions                  | Tube Size | Height of portable |
|-------------------------------|-----------|--------------------|
| Support Platform (U channel ) | 80x40x5mm | 1.0 m              |
| Support Platform (Angle )     | 50x5 mm   | 1.0 m              |

- Support Platform
- Lightweight design Weight = 17 kg .
- Fast and easy used.

## Safety Platform Two Side

- A high-quality temporary safety platform designed for concrete casting works in areas where no supporting floor or slab is available.
  - The system consists of a heavy-duty steel structure, integrated safety guardrails, and secure anchoring points fixed to the concrete structure to ensure full compliance with safety standards and to minimize fall risks during execution.
  - The platform is specially designed for installation inside project cores and remains operational throughout the entire construction period.
-
